全产业链模式

打造全产业链发展模式的现代化企业集团

WHOLE INDUSTRY CHAIN MODEL

全产业链投资管控是方翔羽绒稳健发展的基石和优势。公司在辽宁、山东、广西和安徽其他县市均建立起自己的水禽养殖和屠宰加工基地,在源头上保证原料供应,管控羽绒原料的品质标准,使货源组织稳定高效的供应链优势在行业内获得一致好评。

Investment management and control of the whole industry chain is the cornerstone and advantage of Fangxiang Down's steady development.

The company has established its own waterfowl breeding, slaughtering and processing bases in Liaoning, Shandong, Guangxi and other counties and cities in Anhui, thus ensuring the supply of raw materials at the source, also controlling the quality of down raw materials, making the source organization stable and efficient. The advantage of the supply chain get unanimous praise in the industry.

三大主推羽绒产品

抗菌羽绒

抗菌羽绒能有效杀灭羽绒中的细菌(大肠杆菌、布氏杆菌、巴氏杆菌、沙门氏菌、芽孢杆菌、粪便链球菌等),减少过敏原,保护人体健康,且经过我们抗菌处理后的羽绒制品彻底清除了羽绒中残留的异味,满足人们对羽绒在健康卫生方面及高品质的要求。

高蓬松精品羽绒

高蓬松羽绒=高含绒量×高保暖性×高清洁度×飞丝少×低油脂,其中任何一项不达标则不能称为高蓬松精品羽绒。高蓬松羽绒来源于生长期大于 12 个月的鹅和鸭,并且此类鸭鹅都是养殖在东北,经历过整个冬季的鸭鹅。我司致力于研发高蓬松精品羽绒,至目前已能成功的生产出符合日本标准的 18cm、19cm、20cm 等不同等级的高品质优质羽绒。

防水羽绒

羽绒是世界上已知的最好的天然保暖材料,但是羽绒和其他保暖材料一样惧怕受潮,受潮的羽绒会极大降低羽绒的保暖性、透气性和舒适性,并且容易滋生细菌,我司研发的防水羽绒能很好克服羽绒易受潮的缺点,更好的满足客户要求。

ANTIBACTERIAL DOWN

It can effectively kill bacteria in down (Escherichia coli, Brucella, Pasteurella, Salmonella, Bacillus, Streptococcus faecalis, etc.), reduce allergens, and protect human health.

The down products after our antibacterial treatment completely remove the residual odor in the down and meet the high quality requirements and down healthy requirements of consumers.

HIGH FILLING POWER DOWN

High Filling Power Down=high down cluster × high turbidity × less fibers × less oil&fat, any one of which is not up to the standard can not be called high filling power down, With high heat retention.

The high filling power down comes from geese and ducks with a growing period of more than 12 months, and most of these ducks and geese are raised in Shandong province, which have experienced the whole winter.

Our company is committed to the research and development of high filling power down, so far has been able to successfully produce 20cm in accordance with the Japanese standard, the American standard 1000FP. And other different grades of high quality down.

DURABLE WATER REPELLENT DOWN

Down is the best natural thermal insulation material known in the world, but down as same as the other thermal insulation materials is afraid of getting wet, . The damp down will greatly reduce the warmth, breathability and comfort of the down, and it is easy to breed bacteria. The waterproof down developed by our company can well overcome the disadvantage of down being easily damped and better meet customer requirements.

上饶市鹏强羽绒有限公司
SHANGRAO PENGQIANG FEATHER & DOWN CO., LTD

Not big, but good

Shangrao Pengqiang Feather and Down Co., Ltd. is the Director Member of China Feather and Down Industrial Association, the member of China Down Industry Quality Alliance and one of the main drafting units for "Down Grading Standard" of China down industry. Our company owns 5A Grade down production ability. Founded in 2006, our former name is Jiangxi Shangrao Down Factory, which was a state-owned enterprise, built in 1958.

Our main businesses are export and domestic sale of high-level water washed down and feather. Since 2011, we have started to provide high-end custom-made business of down beddings, targeting on end consumers in local and surrounding areas. This action receives wide welcome from consumers.

Our business philosophy: instead of big scale, we chase for better operation. In terms of company scale, our company is just small size within the industry. However, what we chase is our product quality keeps close pace with the industry's development, more importantly, to be among the first team of domestic down enterprises.

Our quality philosophy; firmly insist on "original" down and feather, insist on the strict requirement of sanitary index, and never rely on chemical agents to improve the testing indexes of down.

We welcome any enterprise and individual who is interested with our company from home and abroad to pay a visit and guide our work!

The transportation of Shangrao, Jiangxi Province is very convenient. Both high-speed railway lines: Beijing – Fuzhou and Shanghai – Kunming pass Shangrao. Shangrao high speed railway station is the only transfer station for East – West and South – North railway lines in China. The newly built (in 2017) Sanqingshan airport is only 8 kilometers from our company.

Shangrao Xinshun Down Products Co., Ltd

Shangrao Xinshun Down Products Co., Ltd. is an export-oriented enterprise, specializing in the production of down products, which is the Director Member of China Feather and Down Industrial Association(CFDIA). It was established in 2007 and the predecessor of the company is Jiangxi Shangrao Down Factory, a state-owned enterprise founded in 1958.

Shangrao Xinshun Down Products Co., Ltd. mainly produces high quality duvet (shell) for Nishikawa Sangyo in Japan and the annual production capacity of duvet (shell) is more than 300,000. The company has a stable sewing team and excellent workmanship to produce high-quality duvet (shell) with complicated process.

Our business philosophy is to do the best no matter the scale of the business. Although our enterprise scale is not the largest, we are in the top tier of chinese industry in terms of high quality and complicated technologies.

Moreover, Shangrao has a very convenient transportation, specially with two High speed railway Beijing-Fuzhou line and Shanghai-Kunming Line passing through. Hence Shangrao has become the only high-speed railway hub in China where East-West line and North-South line intersect at the same point. In addition, there is an airport, Sanqingshan Airport, in Shangrao since 2017 which is only 8 kilometers away from the company.
